Penpont Brewery

Penpont Brewery was established in a converted milking parlour on the edge of Bodmin Moor, Cornwall by head brewer and beer sommelier Joe Thomson. Using our own spring water and the finest natural ingredients we produce an award winning range of ales, with a focus on creating some of the tastiest beers around. Inspired by the incredible variety of flavours that can be used to brew beer, we aim to produce innovative beers packed full with flavour in a range of styles, from session ales to big hopped IPA's, specialist beers to historical styles/methods. Since being established we have gone through several programs of expansion, and now sell our cask and bottled beers throughout the UK, and export currently to 5 different countries around the world. We are incredibly passionate about our beers, and we hope you enjoy them as much as we do.

Coming Soon to the Brewers Wholesale. We have great pleasure in announcing that we will soon be importing a genuine Irish draught stout

Brewed at Carlow Brewing Company in southern Ireland since 1998 and carrying the family name of the brewery founders, O'Hara's is a full bodied and luxuriously smooth Irish Stout. Brewed at 4.3% ABV, the combination of traditional stout hops, with an extra pinch of roast barley, delivers an award-winning stout true to the Irish tradition.
